

Technical Data Sheet

Durez[®] 13349 phenolic resin

Description:

Durez[®] 13349 is an oil modified thermoplastic phenolic resin, supplied in pastil form. It requires the addition of hexamethylenetetramine to make it thermosetting.

Typical properties:

| Test method | Properties | Durez [®] 13349 |
|-------------|-------------------------|--------------------------|
| DCT 1 | Appearance | dark brown pastils |
| DCT 11C | Melting point clear, °C | 80 |

* DCT test methods are available upon request

Technical Data Sheet

Storage:

Durez[®] 13349 is a stable material at ambient temperatures. When stored under optimum storage conditions (below 25°C and 60% relative humidity in unopened original packaging), Durez[®] 13349 will not sinter and has a shelf life of 12 months from the shipping date.

Packaging:

Standard packaging for Durez[®] 13349 is plastic bags, containing 25Kg net. Bags are shipped as 1250Kg unitized pallet loads. All packaging is marked with product number, lot number and net weight.

READ THE MATERIAL SAFETY DATA SHEET BEFORE HANDLING, STORING OR USING THIS PRODUCT.

The information presented herein, while not guaranteed, is to the best of our knowledge true and accurate. No warranty or guarantee express or implied is made regarding the performance or stability of any product, since the manner of use and conditions of storage and handling are beyond our control. No suggestion for product use nor anything contained herein shall be construed as a recommendation for its use in infringement of any existing patent.
